Blink.

Product Data Sheet | Product Code: Blink-562 | Date: 3/11/2022

Introducing Blink.

Blink is a descaler used to clean build up faster and more effectively than other cleaners. This powerful, yet gentle solution, has been created by Cleaner Future to safely remove food, scale, and rust build-up on commercial food processing equipment. Let Blink be the tool to get yours working more efficiently.

Key Benefits

- Highly acidic for descaling dishwashing machines
- Contains high foaming and biodegradable surfactants
- Helps remove scale build up in commonly found in dishwashers
- Helps maintain the hygiene of your washing machine

Sustainability

Cleaner Future aims to construct formulations that efficiently solubilise and disperse fats, oils and dirt, thereby minimising the amount of cleaning product required to achieve a complete clean. This lightens our load on our sewer system and increases the rate and degree of biodegradation. We endeavour to use plant-based surfactants that originate from cropping. Where possible, we replace petrochemical solvents with plant-based oil seeds.

ECO SEPTIC SAFE

BIO-DEGRADABLE

Directions of Use

Turn dispenser off. Empty wash tank and remove food scraps. Clean machine surface. Add 100ml per wash tank. Switch machine to manual wash and circulate. Drain and rinse with water. Repeat process for effective results.
